

FROM THE CORNER OFFICES

As we begin our 50th year of being in business, we not only get to celebrate this great accomplishment, but we also get to share new and exciting news. Since the inception of Frattalone Excavating, Frank has ventured into many aspects of the construction industries. From the mother company (Frattalone Companies, Inc.) to Fra-Dor, Dawnway, Frattalone Tractor Company, Fratts Land Co, and a few others, he has created what we like to call “The Frattalone Family of Businesses”. Now at the age of 70, Frank is finally pulling the pin to enjoy his time away from the industry he has been so passionate about since 1970.

As Nick and I increase our involvement with these other entities, we need to ensure Frattalone Companies receives the same amount of focus, direction and leadership that it always had in order remain successful and a leader in our industry. With that said, I will be stepping out of the President position and moving into a Chief Operation Officer (COO) position to cover the operations of all of the Frattalone entities mentioned above. At this time, we are excited to announce the following promotions within Frattalone Companies, Inc:

Dylan Larson, President

In addition to his superior knowledge of the trade, leadership qualities and respect he has earned throughout the industry, Dylan illustrates the same core company values that Frattalone Companies was built on and is committed to carrying forward. As owners, we are honored for him to accept this role and lead our company into our next chapter.

Todd Olund, Vice President of Operations

With over 35 years of dedication to Frattalone Companies and our family, we are grateful that Todd accepted this position. Todd’s core values, knowledge and commitment to our company, our employees and our customers is what makes him the perfect fit for this position.

Cory Van Engen
Director of Estimating

Cory started with FCI 14 years ago as an estimator/project manager. His many years of experience in estimating, project managing and relationship building make him a perfect fit to lead our estimating staff.

Tom Everson
Senior Estimator

In 2003, Tom started as the GPS specialist and introduced GPS technology to FCI. Since 2005, he's been estimating and managing projects for us including projects in New York, Alabama, Washington and North Carolina.

Charlie Janssen
Project Manager

Charlie has been an assistant project manager for the last 2 years. He was the onsite project manager at the recently completed Walmart Import Distribution Center in Mobile, AL and has been managing projects in MN since his return.

Matt Krause
Project Manager

Five years ago, Matt started as an equipment operator for FCI. In 2017, he moved into the role of assistant project manager. His continued growth is recognized in this promotion.

These changes will ensure that leadership and day to day operations will continue to have 100% focus on Frattalone Companies and the employees that make up our great organization. We are extremely excited for these promotions and what the future has in store for us all at Frattalone Companies.

We have an extremely busy season ahead of us and are looking forward to seeing you all soon!

Tony Frattalone, COO & Nick Frattalone, CEO

GONE BUT NOT FORGOTTEN...

BRENDEN SCHUTTS

November 27, 1989 - February 9, 2019

We lost a member of team Frattalone on February 9th from a tragic snowmobile accident.

In April of 2017, Brenden Schutts began his young career at Frattalone Companies as a heavy equipment operator in the earthwork division. Although his career here was short, he positively impacted all of his coworkers in this limited amount of time. In his free time, Brenden was very passionate about outdoors, especially hunting deer. He was an exceptional young man and will be greatly missed by all.

THE DIRT
